

CLOUD DAFTAR

User Manual

A layman-language guide for every major screen, module, tab, button type, toast message, dashboard, setting, and administration area.

Generated: 23/05/2026

Audience: Business owners, cashiers, accountants, managers, staff users, and platform admins.

Note: Some screens appear only when the user's role, permissions, plan, or tenant route allows them.

How To Read This Manual

This manual explains Cloud Daftar in simple business language. Each module includes purpose, scope, and impact.

Term	Meaning
Purpose	Why this screen exists.
Scope	What this screen or module can handle.
Impact	What changes in the business when a user works here.
Toast	A small message that appears after an action, such as saved successfully or failed.
Permission	A rule that decides whether a user can view, create, edit, delete, approve, export, or manage something.

Navigation Map

The sidebar groups the system into business areas. The top bar also provides search, notifications, theme, profile, settings, billing, and sign out shortcuts.

Sidebar Group	Screens
Dashboard	Dashboard, Apps, Activity
POS	POS Register
Sales	Sales Invoices, Customer Payments, Returns, Quotations, Customer Statements
Purchases	Purchases, Purchase Orders, Supplier Payments, Purchase Returns, Supplier Statements
Inventory	Products, Categories, Units, Branches & Warehouses, Barcode Management, Stock Adjustment, Inventory Ledger, Low Stock Alerts
Contacts	Customers, Suppliers
Accounting	Dashboard, Expenses, Customer Invoices, Vendor Bills, Income / Expense, Cash Flow, Chart of Accounts, Journal Entries, Financial Reports, Reports
Reports	Sales Reports, Purchase Reports, Inventory Reports, Tax / VAT Reports, Receivable Aging, Payable Aging
Expenses	My Expenses
Employees	Employees, Payroll
Administration	Users, Roles & Permissions, Workspace Settings, Invoice Templates, Theme & Branding
Bottom Menu	Billing & Subscription, Help / Support, Logout

Common Buttons And Controls

Control	Layman Explanation
Search box	Type part of a name, number, SKU, barcode, invoice, customer, supplier, or setting to narrow the list.
Add/New button	Opens a form to create a record. The record is not saved until Save/Create/Submit is clicked.
Edit button	Opens an existing record so allowed fields can be changed.
Delete/Remove button	Removes or deactivates a record. Use carefully because some records affect reports and history.
Save/Create/Submit button	Checks the form and stores the information.
Cancel/Close button	Leaves the dialog without saving current unsaved changes.
Export CSV/Excel	Downloads table data so it can be opened in Excel or shared with an accountant.
Print/PDF	Creates a printable document for customers, suppliers, or internal records.
Filter button	Applies selected dates, status, product, customer, supplier, or type filters.
Previous/Next page	Moves through long lists without loading everything at once.
Switch/toggle	Turns a setting on or off.
Select/dropdown	Lets the user choose one value from a list.
Tabs	Divide one module into related sub-sections without leaving the screen.
Dialog/modal	A smaller window for quick create, edit, confirmation, or detail work.
Toast message	A temporary popup showing success, warning, or error after an action.

Common Toast Types

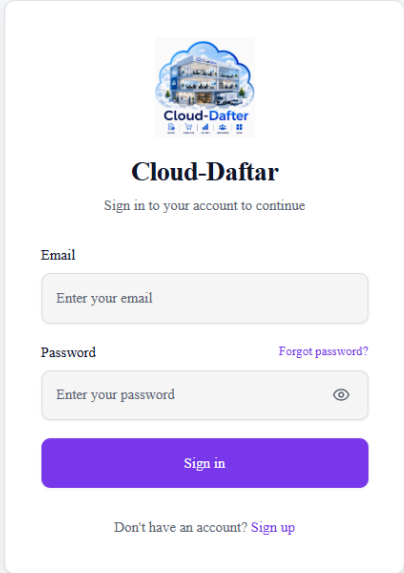

Toast Type	Meaning	What To Do
Success	The action worked.	Continue with the next task.
Error	The action failed or required information is missing.	Read the message, correct the form, check permissions, or try again.
Warning/Disabled button	The action is not available yet.	Complete required fields, select records, or ask an admin for permission.
Loading/Saving	The system is working.	Wait until the button becomes active again.

Screen Examples

These screenshots show the actual Cloud Daftar interface from the demo workspace. They help users match this manual with what they see on screen.

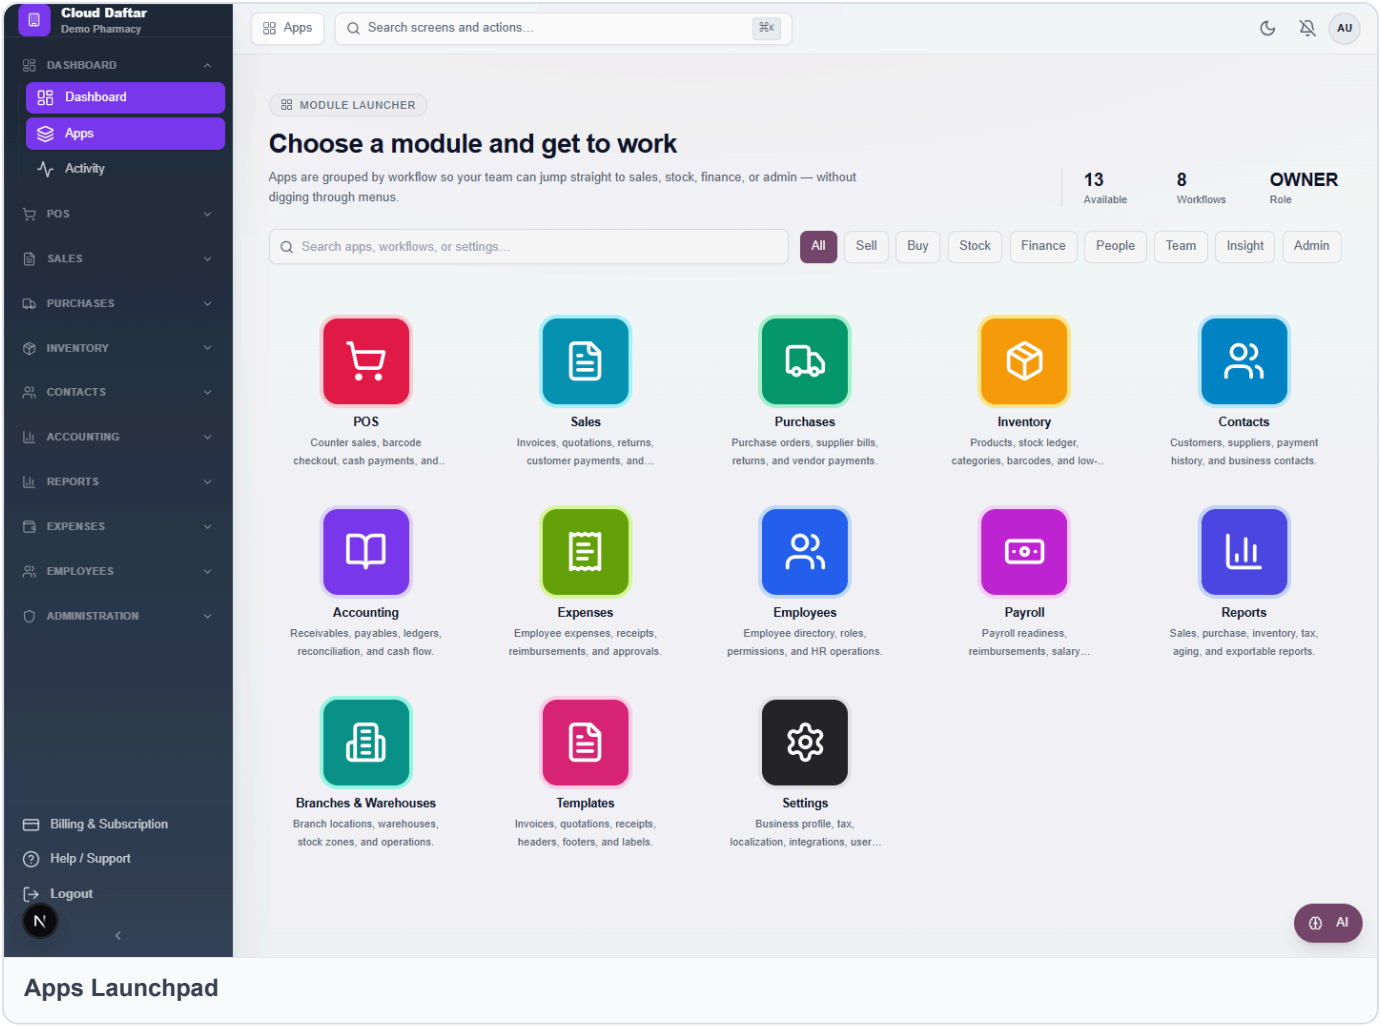

The screenshot displays the Cloud-Daftar login interface. At the top center is the Cloud-Daftar logo, which features a colorful illustration of a city skyline within a cloud shape. Below the logo, the text "Cloud-Daftar" is prominently displayed in a bold, black font. Underneath this, a smaller line of text reads "Sign in to your account to continue".

The login form consists of two main input fields. The first is labeled "Email" and contains the placeholder text "Enter your email". The second is labeled "Password" and contains the placeholder text "Enter your password". To the right of the password field is a small eye icon for toggling password visibility. Above the password field, there is a link that says "Forgot password?".

Below the input fields is a large, solid blue button with the text "Sign in" in white. Underneath the button, there is a link that says "Don't have an account? Sign up".

At the bottom of the login form, there is a small copyright notice: "© 2026 Cloud-Daftar. All rights reserved.".

In the bottom left corner of the overall image, there is a small circular icon with a white 'N' on a dark background. Below this icon, the word "Login" is written in a bold, black font.

Permission Impact Summary

Cloud Daftar uses permissions so every user sees only what they need. Owners normally have full access. Admins and managers may have broad access. Staff and cashiers usually have limited access for daily operations.

Permission Area	What It Controls	Business Impact
Dashboard	Viewing summary metrics.	Lets users monitor the business without changing data.
Inventory	Products, stock, categories, adjustments, deletes.	Affects what can be sold and reported as available.
Sales	Invoices, POS, returns, edits, deletes.	Affects revenue, customer balances, stock, and tax records.
Purchases	Supplier bills, purchase orders, approvals, drafts.	Affects inventory cost and supplier balances.
Customers/Suppliers	Contact creation, editing, and deletion.	Affects invoices, purchases, payments, and statements.
Reports	Viewing and exporting reports.	Controls who can see sensitive business performance data.
Accounting	Receivables, payables, reconciliation, reports, journals.	Affects financial records and accountant review.
Expenses	Submitting and approving expenses.	Affects reimbursements and company costs.
Employees/Payroll	HR records, contracts, payslips, batches.	Affects employee data and salary workflows.
Users/Settings/Billing	Team access, workspace setup, subscription.	Affects security, document behavior, branding, and plan access.
